

Suma[®] Drain Maintainer GTS1

A multiple strain blend of bacteria formulated to attack the soils commonly associated with build-ups in pipes and grease traps.

Effective

- ▶ Significantly extends the manual cleaning cycle
- ▶ Restores normal flow rate to slow drains
- ▶ Reduces the demand for further downstream waste processing

Easy-to-Use

- ▶ Non-toxic, non-corrosive, non-caustic and safe for general commercial and industrial use
- ▶ Highly concentrated formula gives greater economy in use
- ▶ Automatic application through a dispensing pump is recommended for best results

Designed For

- ▶ Healthcare
 - ▶ Food Service
 - ▶ Lodging
-

Use Overview

Suma® Drain Maintainer GTS1 is a multiple strain blend of bacteria formulated to attack the soils commonly associated with build-ups in pipes and grease traps. Regular use will decrease the frequency of cleaning out grease traps and eliminate slow flowing drains.

Drain and Grease Trap Maintenance

- ▶ During initial start-up, manually dilute product at a rate of 1:3 with warm water and pour about 1 gallon (3.78 L) of diluted solution down each floor drain in the facility.
- ▶ Dose daily at a rate of 5 – 30 oz/day (148 mL – 886 mL/day) into the drain, trying to get the product past the P-trap in the drain line at the drain closest to the grease trap. Dose at the higher end of the range for the first 2 weeks of treatment and then gradually lower the rate as the bacteria population is built in the drain system.
- ▶ Odor reduction should be noticeable within 24 hours after the initial dosing.

Septic Tanks

- ▶ Dose daily at a rate of 0.05 - 0.17 oz per gallon (1.48 – 4.7 mL/ 3.78L) of septic tank capacity, depending on the soil load in the septic tank.
- ▶ In food processing or handling areas, all food products and packaging materials must be removed or carefully protected prior to use.
- ▶ Not for use on food contact surfaces or direct food contact.

For Food Plant Use

- ▶ Avoid contamination of food during use or storage.

Product Specifications

Description	Concentrate
Certification	Registered for food plant use.
Color/Form	Green liquid
Flash Point	>200° F (> 93.4° C)
pH	8.5
Scent	No fragrance added
Shelf Life	2 years
Solubility	Complete
Specific Gravity	1.0

Available Items

Product Code	Description/Package Size	Dilution
5640023	1 x 5 gal./18.9 L Pail	Ready-to-use

Safety Reminder

Please make sure your employees read and understand the product label and Material Safety Data Sheet before using this product. The label contains directions for use, and both the label and MSDS contain hazard warnings, precautionary statements and first aid procedures. MSDS are available on-line at www.diversey.com or by calling 888 352 2249.

Hazard Rating

HMIS	Concentrate	NFPA
1	Health	1
0	Flammability	0
0	Reactivity	0

4=Very High; 3=High; 2=Moderate; 1=Slight; 0=Insignificant.
