### Advantages

The power of the Super CoachVac® in a smaller size—designed for mid-sized cleaning environments.

Weighing only 10 pounds, the Super QuarterVac is versatile enough for any sized cleaning professional performing any vacuuming application.

Choose various attachment kits that offer specialized tools for every need.

Organically treated Intercept Micro Filters, along with our Four Level Filtration system, are up to 99.9% efficient at capturing dust mites, pollen, bacteria and other particulates measuring 1 micron and larger.

Redesigned ergonomic backplate with switch cord pocket, cord control and integrated tool belt to keep accessory tools within your grasp.

New waist and shoulder straps distribute weight evenly for maximum comfort and quick adjustment.

Includes a thermal protector shut-off switch that prevents the motor from overheating due to a full filter or obstruction within the vacuum.

Vastly exceeds all industry regulation testing standards set by the Carpet & Rug Institute and the requirements of the U.S. Green Building Council's LEED rating system on performance and filtration.

### Warranty\*

3 years on parts, labor and motor. Lifetime on body.

\*see owner's manual for complete warranty details
