

Consume
DRIP
IN-A-DRAIN
Nature's Way

single dose, natural drain treatment

Consume Drop-in-a-Drain is a blend of several strains of natural digesters stabilized in an organic carrying agent and encapsulated in a unique water-soluble packet. The digesters consume or "eat" the organic build-up on pipes, eliminating build-ups and keeping pipes free flowing and clog free.

HOW DOES CONSUME DROP-IN-A-DRAIN WORK?

Consume Drop-in-a-Drain contains digesters that have been carefully selected for their ability to digest high levels of organic waste including; sugars, carbohydrates, proteins and fats. This digestion process turns waste into water and carbon dioxide, eliminating build-up and the resulting slow or clogged pipes.

SAVES TIME, RESOURCES & MONEY:

Soap scum, food waste, hair, grease, and other organic waste sticks to pipes causing sluggish and eventually putrid, clogged drains. Clogged drains mean irate complaints from customers, calls to in-house maintenance personnel or service fees to outside plumbing professionals. Managers, supervisors, and owners spend endless hours trying to resolve situations caused by clogged drains. It's not only time consuming, but also money consuming, frustrating and not necessary. For just a few pennies, Consume Drop-in-a-Drain keeps drains clear and odor free.

KEEP THE DRAINS OPEN!

Add Consume Drop-in-a-Drain regularly to maintain a free flowing, odor free drain. Add daily to a slow drain and maintain weekly when capacity is restored.

ELIMINATE ODORS:

Layers of decaying waste consisting of fats, proteins, carbohydrates, and sugars often cause that horrendous smell coming from the drain. Use Consume Drop-in-a-Drain to digest the organics, getting rid of those nasty odors.

MAINTAIN SEPTIC TANKS:

Septic systems need to be maintained to prevent clogging of the leach field. Let Consume Drop-in-a-Drain help Mother Nature speed up the process, reducing the chances of having a problem.

ENVIRONMENTALLY CONSCIOUS...PEOPLE SAFE:

Consume Drop-in-a-Drain keeps drains free flowing and reduces odors the natural way! Environmentally safe. No detergents, surfactants or emulsifiers, insuring that the problem is eliminated at the source and not moved downstream. User friendly. Non-Acid. Non-Alkaline.

DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before use, read product label and MSD sheet.

Showers and Sinks:

Place one water-soluble packet of Consume Drop-in-a-Drain on top of drain. Do not remove water-soluble covering. Turn on faucet or shower at low output and allow cold or warm water to completely dissolve Drop-in-a-Drain packet. Repeat application daily, weekly or monthly to prevent build up from re-occurring.

Drain Treatment:

For sluggish drains, add one pack daily to sluggish drain. When flow is completely restored maintain with one pack per week.

Septic System:

Add one pack per week per person contributing to the system. Add to toilet and flush.

NOTE: Do not use with hot water, bleach, disinfectants, or chemical drain openers as these may reduce product performance.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATION DATA:

pH (1.0% solution) – 6.5-8.5

Density – 6.4 lbs/cubic ft.

Flash point – none

Stability:

- Shelf @ 24°C/75°F – N/A
- Accelerated @ 49°/ 120°F – N/A
- Freeze /Thaw Cycle – N/A

Biodegradable

Phosphate free

Safe for use in drains of USDA inspected plants.

Storage: Do not store in direct sunlight. Keep tightly closed when not in use. Store in a cool dry place. Do not Freeze or heat above 110°F.

Keep away from children.
