

TASKI®

## TASKI® jet™/MC 38 and 50

Professional upright  
15-inch (38-cm) &  
20-inch (51-cm)  
dual motor  
vacuum cleaners

Professional upright 15 inch (38 cm) and 20 inch (50 cm) vacuum cleaners, the TASKI jet 38 and 50 are engineered with dual motor system, providing high suction power and efficient cleaning.

### Features

- Vacuum cleaners are very operator friendly due to the robust and ergonomic handle, which is also height adjustable in two positions
- Can be used in a horizontal position to clean underneath beds and furniture
- The compact design and ergonomically designed carrying handle allows easy transportation from room to room and over steps or stairs

### Benefits

- The dual motor system provides an excellent air flow while the high-speed brushes mechanically remove dirt within the fibers of the carpet
- The TASKI jet 38 and 50 can be used in a horizontal position to clean underneath beds and furniture; when used with the appropriate accessories, they can also be used in areas above the floor
- The compact design and ergonomically-designed carrying handle allows easy transportation from room to room and over steps or stairs

### Applications

- Ideal for use in office buildings, conference rooms and other small spaces
- Provides benefits in school classrooms, retail department stores and other small to moderate areas with carpet

## Additional Features

**Convenient tool:** Conveniently attached to the machine, the crevice and dusting nozzle is in direct reach of the operator.

**Ergonomic handle:** The height-adjustable handle comes with handle protection and a telescopic tube with a one centimeter step adjustment that promotes a non-fatigue operation.

**Easy maintenance:** The brush can be changed without tools and a warning light indicates when the dust bag is full or the brush setting is incorrect.

**Robustness:** TASKI jet 38 and 50 vacuum cleaners are manufactured from high-impact resistant ABS for a long lifetime.
