Black Diamond 800 Pad Product Specifications

3.0 Use

Black Diamond 800 will remove light scratches from natural stone, VCT and concrete surfaces. Leaves floors with a clean, matte, and well-prepared surface for the subsequent Black Diamond steps.

4.0 Construction

The Black Diamond 800 Grit Pad is made of 100% recycled polyester impregnated with billions of microscopic diamonds.

5.0 Labeling

Labeling is to clearly identify product, size, and quantity.

6.0 Environmental Initiatives

- Polyester fiber used in our pads comes from 100% post-consumer and industrial recycled waste product.
- Shipping cartons contain at least 45% recycled material.
- Plant is operating under EPA approved Clean Air Permit.

7.0 Directions for Use

Use on floor machines up to 3000 RPM. Remove debris on the floor's surface by dry mopping. Dry mopping reduces the wear on your Black Diamond pad, as well as on the floor and cleaning tools. Always mount the Black Diamond pad on the floor pad driver with printed side toward the machine and the colored side facing the floor. May be used wet or dry.

8.0 Product Care

For continued good results, it is important to clean your pads thoroughly by rinsing them off with water. This removes dirt that can wear on the floor and reduce the life of the Black Diamond pad.
