Purple MD Degreaser

Floors
Walls
Concrete
Tools
Trucks & Vehicles
Machinery

FEATURES

- Heavy duty formula
- Concentrated
- Versatile
- Low foam

BENEFITS

- Tough jobs made easy
- Low end use cost
- Many uses and flexible dilutions
- Ideal for use in an automatic scrubber

SPECIFICATIONS

- Color:**
Dark Purple
- Odor:**
Sassafras
- pH (Con.):**
12.0 – 13.0
- Recommended Dilution:**
1:4 – 1:12
- Viscosity:**
Water thin
- Foam:**
Low
- Phosphate Content:**
None
- Solubility:**
Complete with water
- Emulsification:**
Excellent
- Rinsability:**
Excellent
- Flash Point:**
None
- Biodegradability:**
Complete
- Storage/Stability:**
1 year
- Weight Per Gallon:**
8.74lbs./gal.
- Freeze/Thaw Stability:**
Keep from freezing

A concentrated medium duty cleaner degreaser for use on medium to heavy industrial soils. This product is formulated to quickly and effectively remove grease, oil, carbon, or any other industrial soil from concrete, machinery, engines, floors, walls, etc. Low foaming for use in automatic scrubbers. This phosphate free formula is nonflammable and non-corrosive.

DIRECTIONS

Dilute product according to guidelines below:

FOR LIGHT SOIL AND GENERAL MAINTENANCE: Use 4 oz. per each gallon of water

FOR MEDIUM SOIL, KITCHENS, ENGINES, MACHINERY, CONCRETE, & WHITE SIDE WALL TIRES: Use 13 oz. per each gallon of water

FOR HEAVY SOIL: Use 26 oz. per each gallon of water

Apply by mop, sprayer, sponge or automatic scrubber to surface to be cleaned and allow to stand for several minutes. For heavier soil, agitate briskly with a brush or aggressive pad. For normal soil, allow the product to do the work. Wipe clean with a moist rag, sponge or pick up with a wet-vac or mop. Where applicable; rinse thoroughly with water. Avoid contact with windows or other glass surfaces.

These directions are flexible rather than specific. In many cases a more dilute solution can be used, while for extreme conditions a less dilute solution may be used.

This product meets the maximum content requirements for Volatile Organic Compounds (VOCs) as established by State and Federal regulations.
