

With the supply chain challenges we have all experienced lately and the extra precautions employers must now consider, Nichols has added a number of new safety solutions, Personal Protective Equipment (PPE), health and hygiene products to help you and your team defend against Coronavirus.

Face Masks & Shields

New variety of face coverings, to keep your associates, customers and students safe.

Non Surgical Disposable Mask

This one size fits all, blue procedural mask features an adjustable metal nose band and latex free ear loops. These masks are 3-ply and are made of polypropylene.

Child Size Disposable Mask

Child-sized surgical style, 3-ply facemask. Soft, comfortable and breathable making them ideal for extended use. Disposable.

Personal Protective Equipment

New variety of Personal Protective Equipment (PPE), to keep your associates, customers and students safe.

Vinyl Powder Free Glove

The most popular general purpose glove. Vinyl gloves are stronger than polyethylene gloves, and offer greater comfort for jobs like food preparation, bussing, and cleaning where gloves will be worn for a greater period of time.

LIMITED QUANTITIES AVAILABLE, PURCHASE LIMITS IN PLACE

Nitrile Powder Free Glove

The perfect compromise between latex and vinyl. Nitrile is made from an allergy safe compound that feels a lot like latex but it's much stronger, costs less, and is more comfortable to wear. Nitrile is perfect for demanding applications, especially cleaning and dishwashing.

Value-Added Resources

Nichols is happy to roll out more tools to help you educate your teams on important measures to put in place during a time of high infection rates. This educational and evolving program is built to address infection prevention and control in the workplace through posters and videos.

As of today there are eleven 11x17 educational posters available. If you are looking to print, ideally laminate, and post in your facilities, please visit us at www.enichols.com/BetterTogether/Healthy-Teams and click on the thumbnail of your choice to download. We also have pre-assembled kits that will have one of each poster. If you would like to purchase a preassembled kit (2020NIC_BTKit) that has one of each laminated, full color poster or even individual posters, please let your account manager know.

Want more? Also, check out our Better Together educational videos on our [#BetterTogether YouTube Channel Playlist](#).

Infectious Disease Preventative Actions

Review infectious disease prevention and control actions such as: staying home when sick, not touching your face, using hand sanitizer, cleaning FTOs, and hand washing.

Part Number 2020NIC_BT_IDPA

Protect Yourself & Others

Help kids remember important actions for infection prevention including: washing hands, social distancing, coughing and sneezing etiquette and more.

Part Number 2020NIC_BT_IDPAK

Hand Washing

Check out why hand washing is important and when it should be done. You will also see a step by step of the correct process as well as different tips on using hand sanitizer.

Part Number 2020NIC_BT_HW

Personal Protective Equipment

Learn about what type of PPE is required based on the chemical you are using as well as how to properly don (put on) and doff (take off) the PPE you are wearing.

Part Number 2020NIC_BT_PPE

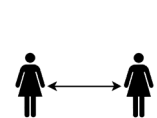

Disinfecting Office Space FTOs

Frequently Touched Objects (FTOs) in a workplace are likely sources of infectious bacteria. Review tips on how to disinfect FTOs in your workplace in an office environment.

Part Number 2020NIC_BT_FTO

Social Distancing

Practicing social distancing helps you decrease the risk of being exposed. Learn about the importance of social distancing and additional tips on staying healthy.

Part Number 2020NIC_BT_SDC

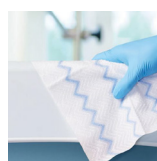

Reusing Bottles

Bottle shortages are common during times of high infection rates. Check out this step by step of the appropriate and safe way to clean bottles before reusing them.

Part Number 2020NIC_BT_RBT

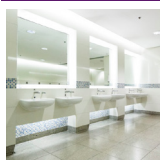

Cleaning vs. Sanitizing vs. Disinfecting

Understand the difference between cleaning, sanitizing and disinfecting. Many people use these terms interchangeably, but they are all very different.

Part Number 2020NIC_BT_CSD

Routine Restroom Care

To have a #ConfidentlyClean restroom, follow consistent restroom cleaning procedures to reduce the spread of infection and disease.

Part Number 2020NIC_BT_RR

Breakroom Cleaning

A clean, healthy, and safe breakroom directly affects associates' health, well-being, safety, and morale. Learn about establishing a daily cleaning routine for your breakroom / cafeteria.

Part Number 2020NIC_BT_BR

Ready to Use Wipes

Learn about the proper way to charge a bucket of wipes and be Ready to Use. Additional tips on cleaning buckets if chemicals are being changed between uses.

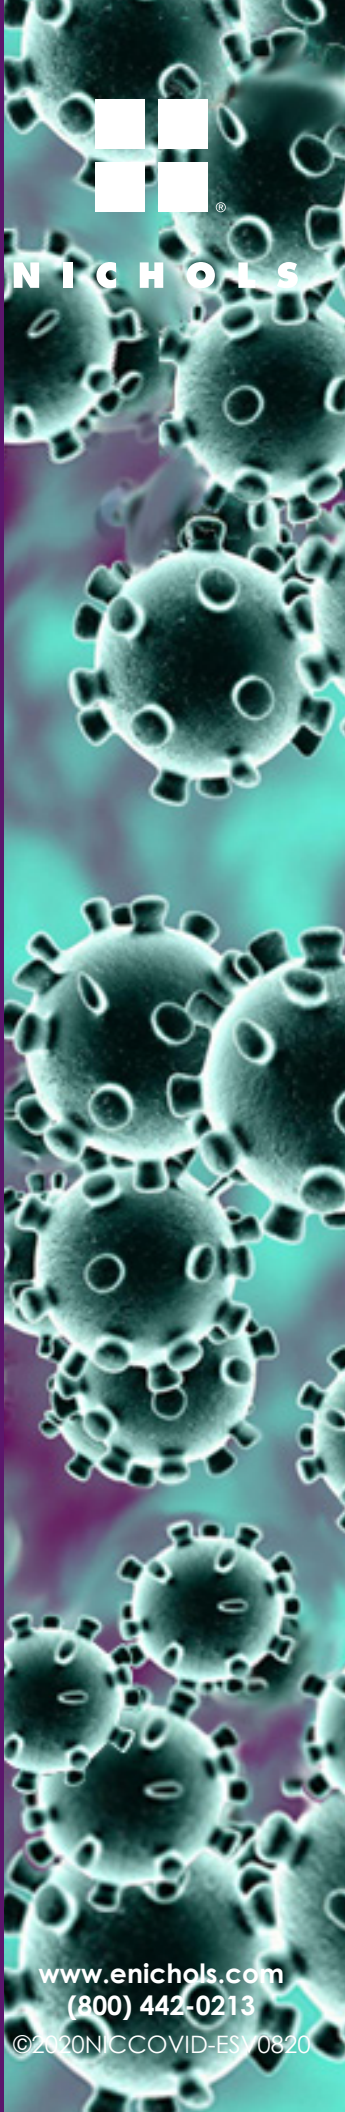

Part Number 2020NIC_BT_RWB
