

Smart
Monitoring
System

Meet the KOLO™ Smart Monitoring System.

Connected restrooms brought to you by the brand that delivers 97% customer satisfaction.

Georgia-Pacific

What's in It **for You?**

Reduced outages. And greater patron satisfaction.

Real-time reporting allows you to **proactively replenish products.**

Greater labor efficiency + custodian satisfaction.

Because the System is continuously monitoring for your custodians, they're able to **tackle other important tasks.**

Greater usage of products. And reduced waste.

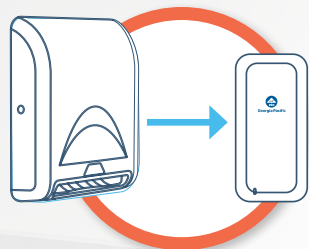

Custodians are notified *when* products need refilling—not *before*. So **products go further.**

Georgia-Pacific

The Most Complete **Connected Restroom**

The System joins proprietary sensor and communications technology with the industry-leading reliability of enMotion® and Compact® dispensers.

Data transmitted from GP PRO dispensers and third-party devices to collectors

Data securely uploaded to the internet via wireless communication

Data stored and analyzed in the cloud

Data sent to easy-to-use KOLO™ mobile and desktop applications

Open architecture enables KOLO™ data to be integrated with third-party applications

TOTO® GP PRO and TOTO® have now collaborated to create the restroom of the future

Georgia-Pacific

Why Go with the Platform That's **As Good As Our Dispensers?**

Accuracy and reliability. Track your product waste down to reliably low levels, using our advanced sensing technology.

Security. An audit completed by Bishop Fox helps ensure data is securely transmitted and stored in the cloud.

Future proof. Two-way communication allows for system updates over the air (OTA).

Open architecture. That allows for integration with facility management systems and partner devices.

What Do Custodians **Have to Say?**

“ I love it! I love how it allows me to see what is happening across the concourse. I stop by a room or give my team a quick call when something needs attention. It has really helped us with the transition between shifts and during breaks and lunch.”

Shannon
First Shift Supervisor—ABM Facility Services
Hartsfield-Jackson Atlanta International Airport

Georgia-Pacific

What Do Managers **Have to Say?**

“I’m able to address operational issues through IoT, **and I’m able to address passenger experience through IoT.**

We have an opportunity to **change the game in the restrooms!**”

Dr. Kofi Smith
President & CEO
Atlanta Airlines Terminal Company, LLC

Georgia-Pacific

KOLO Commitment

We believe that you and your custodians are going to love the **KOLO™ Smart Monitoring System.**

But if after using the System for at least one year you want to discontinue service, you can. **No questions asked.**

No compliance audit. And you can even continue to use the dispensers.

That's the KOLO Commitment*.

* Offer subject to change. Leased dispensers remain subject to the applicable lease.
