

Smart
Monitoring
System

Meet the KOLO™ Smart Monitoring System.

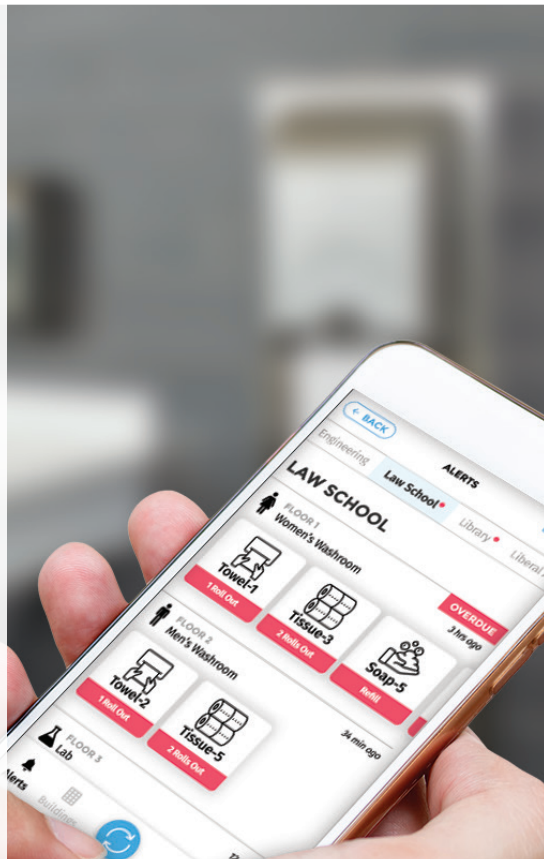

Advanced sensors empower data-driven cleaning to help **improve patron hygiene and custodial efficiency.**

Reduction in People Impacted by Towel Outages (office park in Chicago)*

Reduction in Tissue Waste (sporting arena Atlanta)**

What's in It for You?

Help Protect Patrons and Custodial Staff.

The KOLO™ System helps ensure dispensers are stocked and fixtures are functional, **helping you improve hygiene and decrease the spread of germs.**

Gain Efficiency and Cleaning Time.

Mobile and desktop apps guide custodians to perform maintenance only when needed, **which can help minimize touchpoints, reduce waste and free up time for disinfecting.**

Demonstrate a Dedication to Hygiene.

The KOLO™ System signals your commitment to **creating a smarter, healthier, and safer facility.**

*Person that attempts to dispense paper when towel dispenser is out of product; calculated using the probability a dispenser is out of product and the average towel usage.

**Waste determined as the estimated consumable remaining at the time of refill.

Georgia-Pacific

More Connected = Greater Hygiene

Helping to improve hygiene by connecting proprietary sensor and communications technology with the industry-leading reliability of enMotion® and Compact® dispensers.

Why The KOLO™ System Is The Right Choice:

A platform as good as our dispensers.

Highly accurate sensors connect to crowd-pleasing dispensers! In fact, 97% of enMotion® and Compact® customers are satisfied.¹

Most complete connected restroom solution.

Open architecture provides seamless integration with facility management solutions and partner devices and dispensers.

Ease of implementation.

Only solution with multiple connectivity options to overcome limited wireless networking or cellular coverage. Does not require AC power, which can reduce installations costs.

1 GP PRO Proprietary Research: CPT-18-1741 and CBT-19-1960
